

This 1979 Corvette is only a two owner car fully documented since new with only 36,496 actual miles. The original owner of this car bought new from Malcolm Konner Chevrolet in NJ and kept until January of 2013. The second owner lived in Arkansas and only put approx. 3,000 miles since the time of purchase. The car is in amazing condition and the chassis looks like the day it rolled off the assembly line. The car is all original except one repaint done back in 2013 in the original single stage style paint. The interior is original and in excellent shape showing little to no wear. The tires on the car are the exact new reproduction ones at a cost of \$425 a piece! The wheels have been restored. All original exhaust system with catalytic converter, all original smog, and all original drivetrain. This particular 79 model still has the 140 m.p.h speedometer which changed to 85 m.p.h. in late 79. The car is finished in Corvette Red with Black Leather interior. One of the nicest examples of what a 1979 model Corvette should be and look like.

**1979 Corvette T-Top Sport Coupe**

Rare L-82 4-Speed with only 36,496 Miles All documented and extremely clean

Documentation includes original purchase sales contract, original window sticker, original sales brochure and owners manual, original registration receipts dating back to when the car was new, title history, and odometer statements verifying the miles on the car. Even the original license plates, keys, spare tire and wheel, are all still intact and with the car. All original window glass as well in excellent shape. Equipped with rare options and features including:

- L-82 Engine 350 C.I. V8 225 H.P.
- M-21 4-Speed Manual Transmission Close-Ratio
- FE7 Gymkhana Suspension
- CC1 Removable Glass T-Top Roof Panels
- C60 Factory Air Conditioning
- A31 Power Windows
- C49 Rear Window Defogger
- N37 Tilt/Telescopic Steering Column
- N90 Aluminum Wheels
- QBS White Letter SBR Tires P255/60R15
- UM2 AM/FM Radio, stereo with 8-track tape
- U75 Power Antenna
- U81 Dual Rear Speakers ZX2 Convenience Group
- UA1 Heavy Duty Battery

Back in 1979 this would have been the ultimate Corvette to have with these rare options. Only 4,062 close-ratio 4-speed cars were built out of 53,807 total produced. Future collectable and fast appreciating.
